

recycLA

RecycLA is the City of Los Angeles' historic public/private partnership offering recycling and waste services to all businesses and large multi-family buildings. The aim of RecycLA is to reduce waste by 1 million tons per year and facilitate recycling. As customers generate less trash and increase their recycling, they naturally lower their own rates. RecycLA provides many new benefits and services, including recycling, 24/7 customer support, clean fuel trucks, and predictable rates.

Customer Service & Consumer Protections

64,000

Customized Waste Assessments have been completed.

70%
of customers pay **no extra fees.**

Economic Benefits & Savings

3,430 on-site inspections

have been completed to ensure customers are receiving predictable and equitable rates.

JOBS

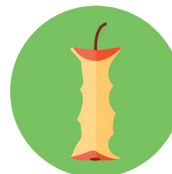

RecycLA service providers hired over **760 staff for collections** and **230 new staff hired in the field** have helped customers complete waste assessments during the transition.

Environmental Benefits

318,000 cubic yards of blue bin material

are now being collected every week

376 tons of food

have been diverted from landfills which means less methane gas emissions and improved air quality.

456 near zero emission natural gas vehicles

are now in service and dirty polluting trucks continue to be taken off our streets.
