## Venice Dual Force Main Sewer Project NOTICE OF UPCOMING CONSTRUCTION ACTIVITY

### Background

LA Sanitation & Environment is constructing a new 54-inch diameter pressurized sewer line from Venice to the Hyperion Water Reclamation Plant in Playa del Rey to replace the existing 50-year-old sewer line. Construction activities include micro tunneling between sewer access points (shafts) to create a tunnel for installation of sewer pipeline segments.

### Summary

As part of the sewer pipeline construction, the contractor will install new sewer pipeline segments at this shaft site. Construction activities will include the following:

- Preparatory and mobilization activities including delivery trucks, installation of equipment, and supplies
- Sewer pipeline segments installed underground via the shaft
- On-going delivery of supplies, including sewer pipeline segments
- No changes to the current construction work zones are anticipated for this activity
- No changes to the current traffic pattern on Via Marina are anticipated for this activity

### Date and Location

**Date/Time:** April 2020 – June 2020

**Where:** Construction site on Via Marina at NW Passage

### Additional Construction Information

- Driveway, trash and delivery access will be maintained at all times.
- For after 5:00 p.m. and weekends, call the LA Sanitation & Environment Customer Care Center at (800) 773-2489.
- Project Construction: Spring 2017 through Fall/Winter 2020 – Schedule is subject to change due to weather and other unforeseen circumstances.
- There will be no changes to the current construction work zone or the current street configuration on Vista del Mar
