

Chaperone Reminders and Expectations

As a chaperone for your group, you have the wonderful opportunity to make a positive impact on the overall experience for the students. We would like to share a few helpful tips that will aid in your important role.

1. Please refrain from use of cell phones during the field trip and put phone ringers on silent mode; this includes students.
2. Please stay with the group unless a staff member authorizes you to leave the group. Please ensure all students do the same.
3. Please direct students' attention when docents are sharing information.
4. Please escort students to and from the restrooms in pairs.
5. Please ensure all students are following the ELC/Plant Rules:
 - a. No running, smoking, eating or drinking is allowed.
 - b. Closed toe shoes are required at all times.
 - c. Hard hats are to be worn at all times during plant tours.
6. Please enforce all safety instructions given by docents.
7. If unruly behavior compromises group safety, you may be asked to remove a student(s) from the tour and have them wait on the bus.
