

DISCOVER YOUR WATERSHED MOMENT

From Los Angeles River to Ballona Creek, from Dominguez Channel to Santa Monica Bay, every Angeleno lives in a watershed and possesses the power to protect it! Through its work, LA Sanitation's Watershed Protection Program strives to protect LA's local rivers, creeks, lakes and beaches. Together we can keep LA's waterways free of pollution. Let us help you discover your watershed moment!

BE A WATERSHED PROTECTOR!

Report illegal dumping, a clogged catch basin or suspicious fluids flowing into a catch basin by calling **(800) 974-9794** or sending us an e-mail at lastormwater@lacity.org.

BE A WATERSHED EDUCATOR!

Visit us at lacitysan.org/watershedresources or email us at lastormwater@lacity.org to request public education materials. Our Booth In A Box program provides outreach materials for community groups and events. Our Teaching LA's Kids pages include classroom and virtual resources for schools and teachers.

BE A WATERSHED BUILDER!

If you're planning to remodel your home or business, your project may require Low Impact Development (LID) best management practices. Visit us at lacitysan.org/lid to learn how to build a healthier watershed.

BE A WATERSHED SAVER!

When you pick up after your dog, you save Los Angeles' watersheds by keeping harmful bacteria from flowing into local rivers, creeks, lakes and bays. To request a free canister of dog waste bags or a roll of refill bags, please visit lacitysan.org/dogwastebags
